The Perfect Forecaster Replacement Suite

Sooner or later, you're going to have to replace Forecaster. BI360 can provide you with replacement for your budgeting needs and much more!

BI360 offers a solution with capabilities that include Excel-based budgeting and reporting, Excel or Web-based dashboards and a pre-configured data warehouse. Use the entire suite or mix and match the modules you need. Our partners and customers agree, BI360 is the right alternative for companies looking for the next-generation budgeting and reporting solution and beyond.

See How Forecaster Stacks Up & Compare:

Valued FRx Features	Microsoft Forecaster	bi360
Designed by 'accountants for accountants' (built in accounting logic)		
Out of the box integration to report writer		
End User Ease of Entry		
Summary and detailed Budgeting (e.g. P&L budget, payroll, capex, etc...)		
Forecaster Feature Enhancement Requests	Microsoft Forecaster	bi360
Microsoft Excel-based		
Ease of formula writing (use Excel formulas for 'unlimited' functions/formula writing)		
Include charts in budgets (see trends, out of range entries, etc...graphically)		
Cash flow budgets and forecasts		
Seamless integrated reporting (use same tool as financial/operational reports)		
Create custom spread methods, trends, depreciation methods, etc...		
Features That Go Above and Beyond Forecaster	Microsoft Forecaster	bi360
Microsoft Excel-based		
Drag & Drop Excel-based budget form design		
Modeling (e.g. profitability and revenue modeling) with break-back		
Rolling forecasts (e.g. 12 or 15 months rolling forecast with trailing history)		
Unlimited functions (Use pre-built BI360 functions or define your own Excel functions...no limit!)		
Detailed and Advanced Sub-ledger budgeting (See history and enter details for projects, sales, payroll, etc.)		
Integrated Business Intelligence Suite* (Reporting, Budgeting, Dashboards, Data warehouse)		

*All BI360 Modules are NOT required to be purchased together as a complete suite. The modules can be used in a mix-and-match fashion, adding modules as business needs change.
